DETAILED ACTION

Priority

It is noted that this application appears to claim subject matter disclosed in prior copending Application No. 08/208,586, filed 11 March 1994. A reference to the prior application must be inserted as the first sentence of the specification of this application or in an application data sheet (37 CFR 1.76), if applicant intends to rely on the filing date of the prior application under 35 U.S.C. 119(e) or 120. See 37 CFR 1.78(a). Also, the current status of all nonprovisional parent applications referenced should be included.

If the application is a utility or plant application filed on or after November 29, 2000, any claim for priority must be made during the pendency of the application and within the later of four months from the actual filing date of the application or sixteen months from the filing date of the prior application. See 37 CFR 1.78(a)(2) and (a)(5). This time period is not extendable and a failure to submit the reference required by 35 U.S.C. 119(e) and/or 120, where applicable, within this time period is considered a waiver of any benefit of such prior application(s) under 35 U.S.C. 119(e), 120, 121 and 365(c). A priority claim filed after the required time period may be accepted if it is accompanied by a grantable petition to accept an unintentionally delayed claim for priority under 35 U.S.C. 119(e), 120, 121 and 365(c). The petition must be accompanied by (1) a surcharge under 37 CFR 1.17(t), and (2) a statement that the entire delay between the date the claim was due under 37 CFR 1.78(a)(2) or (a)(5) and the date the claim was filed was unintentional. The Commissioner may require additional information

where there is a question whether the delay was unintentional. The petition should be directed to the Office of Petitions, Box DAC, Assistant Commissioner for Patents, Washington, DC 20231.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by US 5,107,328 granted to Kinsman (hereafter Kinsman).

Kinsman discloses, referring to figure 2, a semiconductor die carrier (14) comprising: a plurality of electrically insulative side walls; a plurality of electrically conductive leads (28) extending from at least one of the side walls, each of the leads being individually manufactured without the use of a lead frame (see abstract); a semiconductor die (10) positioned such that the electrically conductive leads are disposed at one or more locations around the periphery of the die ; and means for providing electrical connection between the semiconductor die and corresponding ones of the electrically conductive leads (see col. 3, lines 45-60).

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
